About the Seminar

Role of Education in The Protection of Women's Safety And Dignity

"... Safety and security don't just happen; they are the result of collective consensus and public investment. We owe our children, the most vulnerable citizens in any society a life free from violence and fear."

-Nelson Mandela

During the last decade, violence against women and girls has gained international recognition as a grave social and human rights concern affecting virtually all societies. Estimations on the prevalence of violence against women vary depending on the type of violence in question. Educational reforms can play an important role in preventing violence against women by increasing social safety, by empowering women through education, and by promoting better attitudes and practices among students with regard to women's rights. International studies have reliably shown that women with higher educational level have a lower risk of being physically or sexually abused, though the link between education and violence is not necessarily linear. There are a number of initiatives that can ensure situational violence prevention, or, in other words, remove the physical condition and improve the

infrastructure needed to prevent violence against women. Some of the important steps that can be initiated to eliminate this grave problem are organizing seminars and workshop targeting students and parents, workshops with government officials, unequivocal policy statements, documentation on violence and harassment against women. This seminar is aimed at sensitizing the general public, especially younger generation, about the enormity of the situation along with realization of the need for role of education in the protection of women's safety and dignity.

About the Seminar

Relevance of Swami Vivekananda's Thoughts in Today's Perspective
वर्तमान परिदृश्य में स्वामी विवेकानन्द के चिन्तन की प्रासंगिकता

"Arise, awake, and stop not till the goal is reached"

Swami Vivekananda

Swami Vivekananda is known for his diverse contributions, that profoundly shaped the perspective of intellectuals in India and abroad. Vivekananda's insights were rooted in the deep critique of injustices whether arising from tradition or colonialism. His trans-religious perspective and emphasis on service, women's empowerment, and advocacy for economic and political liberty, have become more relevant today.

Vivekananda's philosophy and spiritual practice, was derided as inappropriate by those who embraced a deeply religious life; but, it is now considered vital by religious leaders across nations to address the interrelated concerns that face humanity. His legacy is claimed by both pluralists and nationalists, but many of the causes and ideals that he championed, are yet to be fulfilled in India or abroad. This National Seminar on Swami Vivekananda will examine his complex legacy.

Broad Areas of Focus / Sub Themes

- ✓ Swami Vivekananda as a Global Citizen
- ✓ Post Modernism and Vivekananda
- ✓ Swami Vivekananda : Idea of India
- ✓ Philosophy and Thoughts of Vivekananda
- ✓ Religion and Vivekananda
- ✓ Swami Vivekananda's Legacy of Service
- ✓ Entrepreneurship and Vivekananda
- ✓ Vivekananda and Yoga

Seminar Preamble

IS RIGHT TO EQUALITY A MERE PREVARICATION?

What are we proud of if we have found ourselves deep in this hole of a male oriented society? Where a girl child is often presumed as a curse and if a boy is born in the house, it is a matter of pride. We have ever since been brutally murdering our daughters and slaying the very dream of that innocent life before she could even see the world.

A leap of advancement has surely been there regarding such atrocities and after 68 years of independence, the women of this nation has quite proven their mettle. But only a decade or two that we have seen a nominal growth and such improvements. India sees more of the rural lands where rights are mere a mockery. Still a large chunk of women population is devoid of their basic rights. Be it the their right to equality, their health, their education, their freedom. The social structure of such women has been in shambles and the situation is far more worse than it appears to be. We need not travel far but visit a remote place in India where women are treated like a bargain. And men rule their world. A large population of Indian men have been patronising and they disparage women as if women don't have a say at all.

This deep rooted disease of gender disparity has found no proper cure yet as time and again we have failed to solve the very problem. We have to critically analyze what goes out to create such a disposition and then we can aim to solve this problem in a better way.

About the Seminar

The Gandhian era and the decades after independence have witnessed tremendous changes in the status of women in Indian society. The constitution has laid down the gender equality as fundamental rights. But the change from a position of utter degradation and subjugation of women in the nineteenth century to a position of equality in the middle of the twentieth century is not a simple case of progress of women in modern era. Infanticide, child marriage, sati purda system and prejudice against women's education were some of the measures adopted by Hindu society to save the honour of their women against invaders and foreign rules. All these customs hampered the progress of women, yet there appeared throughout the ages some women who excelled as administrators and reformers. From the time of Rani Padmini, Razia Begum, Durgawati, Rani Jhansi to the beginning of new era and then onwards the women have been taking an increasingly active part in political, social, religious, creative activities of the century. The post-independence period particularly in case of women has been a continuation era of social reforms economics uplift and political recognition. Struggle for equity, justice and parity between two human beings continues. There have been women who have honoured the chair of Prime Ministers, Chief Ministers, Governors Educationalist and Legal Experts. But to say that they have been completely free from social bondage and that their status is at par with the

men would be far from truth. However, efforts are being made in the right direction through social legislation, education and increases in Economy and Political opportunities. This National Seminar on the creative revolutionary role of women will focus on the resurgent role of woman in post independent India.

Broad Areas of Focus/Sub Themes

1. Contribution of women in the field of Arts, Literature and Culture.
2. Positive Role of women in the arena of Politics and Economics
3. Remarkable role of women in the development of Society.

About the Seminar

Swami Vivekananda : The Voice of Resurgent India
पुनरुत्थित भारत की आवाज़ : स्वामी विवेकानंद

"You cannot believe in God until you believe in yourself "
Swami Vivekananda

Swami Vivekananda's inspiring personality was well known both in India and in America during the last decade of the nineteenth century and the first decade of the twentieth century. His vast knowledge of Eastern and Western culture as well as his deep spiritual insight, fervid eloquence, brilliant conversation skills, broad human sympathy, dynamic and handsome personality, made an irresistible appeal to the Americans who came in contact with him. People who saw or heard Vivekananda even once still cherish his memory after a lapse of more than half a century. Service to man as the visible manifestation of the Godhead was the special form of worship he advocated for the Indians, devoted as they were to the rituals and myths of their ancient faith. Many political leaders of India have

publicly acknowledged their indebtedness to Swami Vivekananda. A lover of mankind, he strove to promote peace and human brotherhood in the spiritual foundation of the Vedantic Oneness of existence.

Swami Vivekananda once spoke of himself as a "condensed India." His life and teachings are of inestimable value to the West for an understanding of the mind of Asia. William James, the Harvard philosopher, called the Swami the "paragon of Vedantists." In his own motherland Vivekananda is regarded as the patriot saint and voice of the resurgent India. The present seminar is an attempt to understand his unflinching ideas on Hinduism, unflinching faith in God and Spiritualism, his source of wisdom and his views on Religion and Science, Youth, Politics and many more.

Broad Areas of Focus / Sub Themes

- ✓ Swami Vivekananda as Youth Icon
- ✓ Vivekananda's Unifying Principles of Vedanta
- ✓ Vivekananda's Views on Politics
- ✓ Religion and Vivekananda
- ✓ Vivekananda's Philosophy on Education
- ✓ Post Modernism and Vivekananda
- ✓ Vivekananda as a Seer of Modern India
- ✓ Relevance of Vivekananda's Thoughts in the Present Context
- ✓ Vivekananda's views on *Tolerance, Peace and Harmony*

transformation process. Our deep-rooted traditions and customs have loosened up their hold with the emergence of Globalization. India has a rich cultural background and pride of its culture throughout the world. Globalization has not only inculcated the westernization in India, but conversely the Indian culture has also spread its impact globally. We need to move very cautiously with the globalization process preserving our nation's pride and maintaining our cultural prestige.
