

7.1.7 Green Practices

KMGGPG College is a beautiful campus having various flora and fauna. The ecosystem of the college self dependent, however it has been always been tried to make this campus green and pollution free. The teachers and the staff together make efforts to maintain the niche of this college. KMGGPG College has more than 200 big and around 250 small canopies of trees. It has a lavish green park filled with green grasses.

Several efforts have been made by the students and the teachers to maintain the eco-system of this college are as under-

1. To follow up Swachh Bharat Abhiyan of Government of India, many awareness programs were organized time to time about cleanliness. Rally and displaying boards like 'Say No to Plastics' and 'Reduce, Reuse and Recycle methods' were made to propagate the awareness among the students regarding the importance of cleanliness.
2. The college have recycled 1596.61 kg of waste paper with the help of Jagruti waste paper recycling services which is a step towards environment sustainability.
3. To maintain the level of Carbon di oxide and sulphur Oxide in campus, the use of public transport is always been promoted.
4. On analysis of the data available, it was found that more than 64 percent of students are using Bus to commute, almost 20 percent students commute through on foot being locals and 2 percent students use bicycles to come to college. It was also found that very less percentage of students use private vehicles viz, only 1.79% students come through cars and a little more i.e. 11.59 percent commute through scooty and those who commute through scooty always commute on sharing basis as at least two students together come on single scooter. The teaching and non teaching staffs come to college through car pooling to reduce their fare expenses as well as to maintain the level of harmful gases in the campus.
5. Further, No vehicles is allowed on pedestrian friendly roads within the campus.
6. To make the campus paperless, the uses of group mails/ whatsapp groups have been promoted. Nowadays, Many of the officials work are done and communicated through group mails which definitely saves quantum of papers.
7. To maintain and recharge the ground water level recharge pit has been constructed in the campus.

Although many efforts have been made to make the campus sustainable, however, more efforts are being made for making this campus more environmental friendly through team work and individual participation.

Green Audit Report

KMGPG College expresses its commitment to sustainability in many ways. It has taken a number of positive steps to reduce its environmental impact. But many areas remain in which substantial improvements can be made. This report serves to highlight college's many accomplishments, and to make recommendations for improving the College's environmental

sustainability. The Green audit team conducted the internal Green Audit in academic year 2017-18 and strives to maintain eco friendly atmosphere on the campus.

To maintain eco-friendly ambience given programme is followed -

- Green campus for quality living. The college has a canopy of 200 big and around 250 small trees and various plants that make the environment carbon dioxide free and to maintain health of all the inmates.
- The garden has Gulmohar, Ashoka, Amla, Palm, Neem, Golden Bamboo, Pine, Bottle brush, Rubber Plant and other trees, which provide shade and a beautiful ambience.
- Energy is also conserved by using natural light in the classrooms.
- Know green and think green is promoted on the campus.
- Water conservation is done through Rooftop Rainwater Harvesting Structures and prevention of water wastage is educated among the staff and students.
- Usage of recycled paper bags was promoted among students by Awareness rally's and displaying boards like 'Say No to Plastic'
- Reduce - Reuse - Recycle methods are followed.
- Carbon dioxide neutrality is maintained on the campus by developing greenery

The initiatives taken by the college to make the campus Ecofriendly:

- Energy conservation drive were organized.
- Use of Solar (new and renewable energy) is promoted and Solar Lights Lamps were distributed in various competitions in the college.
- Planning for establishment of new and renewable energy generating structures
- Awareness programme for implementing rooftop Rain Water harvesting structures
- Awareness programmes on "carbon neutrality" by special lectures.

- Plantation in and around the college campus.
- Planning and implementation of proper waste management
- Numbering and Naming of Trees in the Campus.
- On the basis of electricity consumption an electricity load audit was conducted.

The college undertakes various activities through Nature Club, N.S.S., N.C.C. and Rangers like beautification, plantation, water and power management. The biodegradable and non-biodegradable waste segregated by the college was utilized for composting. To create eco-friendly awareness among the students college arranges special lectures by inviting the eminent personalities, who in turn train and educate public. Students and faculty members were encouraged to participate in eco-friendly activities through the activities of eco-club like car pool/car sharing.

Future Strategy and Management:

- Based on a green audit, the College has also planned to replace all conventional lights with energy-efficient LED lights in the coming years.
- The College is planning to install solar panel for use of New and Renewable energy
- Installation of water treatment plant is proposed.
- Composting unit to be established.
- Zero Plastic campus.
