Doctoral Thesis Guided

Management of comminuted radial head fractures with radial head arthroplasty

Researcher: AJEET KUMAR YADAV (ORTHOPAEDIC)

Institute: Upums saifai etawah (2021)

Evaluate the functional outcome of trochanteric buttress plate combined with proximal femoral nail for Unstable Intertrochanteric Fractures

Researcher: Ishwar chandra (ORTHOPAEDIC)

Institute: Upums saifai etawah (2022)

Efficacy of Functional outcome of Variable angle - OLECRANON locking plate v/s conventional olecranon locking plate fixation in Comminuted olecranon fracture-RCT

Researcher: Dr Aman kr srivastava (Orthopaedics)

Institute: Upums ,saifai ,ETAWAH (2022)

Comparative analysis of multidirectional locked tibia nailing versus antero lateral locked tibia plating in the management of external articular distal tibia fracture RCT

Researcher: Dr sandeep singh (Orthopaedics)

Institute: UPUMS,SAIFAI, ETAWAH (2025)

Comparison of femoral neck system & cannulated cancellous screw in the fixation of intercapsular fracture of Femur re n

Researcher: Tanmay khurana (Orthopaedics)

Institute: Upums ,saifai ,ETAWAH (2025)

Comparative Study of conservative & operative stabilization of pott,s spine

Researcher: Pradeep kumar gupta (Orthopaedics)

Institute: S .N . MEDICAL COLLEGE AGRA (2013)
