मा विद्विषावहे"

ABOUT COLLEGE

The college named Km. Mayawati Govt Girls P.G. C was established in 1997 and since then has played an important role in the promotion of higher education among girls of Badalpur and adjoining areas. The College started as an Arts Graduate College in 1997 and today it is a Post Graduate College with Post Graduation in nine subjects in Humanities, besides Science and Commerce at Graduate level since 2008.

WHAT IS THE MENTORSHIP PROGRAM?

Members of the community—faculty included—serve as mentors for Preuss students. Mentors act in a capacity of role model, teacher and friend to encourage and motivate students to reach their educational and personal goals. The exchange between the pair is educational for both, as each person brings their own unique experiences to the exchanges. Mentors are paired with one student based on common hobbies, career interests, and goals for the mentoring relationship. Meetings take place for 30-45 minutes on the school's campus for a period of at least one year. In most cases the mentor/mentee relationship continues for several more years, often until the scholar graduates and beyond.

WHO ARE MENTORS?

Mentors are caring adults who have a willingness to listen, encourage, guide, and inspire. They are committed to developing a supportive relationship to help Preuss students with personal and academic goals.
